

NETSUITE ONEWORLD

The Platform for Your Global Business

The modern company must be data driven, innovative and able to scale rapidly and respond to market dynamics and customers. NetSuite OneWorld delivers a real-time, unified global business management platform for enterprises that manage multinational and multi-subsidary operations—at a fraction of the cost of traditional on-premise ERP solutions.

NetSuite OneWorld helps multinational companies streamline multi-subsidary operations and provides real-time visibility at the local, regional and corporate levels. With NetSuite OneWorld, companies can develop standard business processes and

NetSuite OneWorld Benefits

The NetSuite OneWorld Unified Global Business Management platform:

- Enables the management of multiple subsidiaries, business units and legal entities.
- Supports consistent processes across countries.
- Supports global compliance of internal and external processes.
- Provides real-time global business insight.

deploy them across their divisions and subsidiaries at the click of a button, ensuring compliance of standard processes worldwide. Additionally, NetSuite OneWorld delivers global end-to-end solution to meet critical and time-consuming regulatory financial compliance requirements such as IFRS, SOX and GAAP. Finally, NetSuite OneWorld provides organizations with real-time global business insight via role-based dashboards. The business heads and other stakeholders can get a real-time view of their business performance and drill down into key metrics within an organization's global operations, eliminating the need for custom reports, which may take hours if not days, to generate.

Why NetSuite OneWorld?

NetSuite OneWorld helps global businesses, driving finance and operational efficiency, delivering real-time visibility and consolidation, while providing the flexibility for customizations to corporate and subsidiary needs.

Manage Multiple Subsidiaries, Business Units and Legal Entities

NetSuite OneWorld gives corporate and divisions a clear view into every level of business performance, from summary to detail, through comprehensive financial and operational role-based dashboards and real-time reports.

Run a Complete ERP System in the Cloud

NetSuite OneWorld's cloud delivery enables global businesses to run both corporate and subsidiary operations without costly on-premise IT infrastructure and resources, cutting costs and enabling companies to efficiently extend standardized ERP to every corner of the business.

Consolidate Operations and Gain Real-Time Financial Visibility

NetSuite OneWorld accelerates financial processes with multi-currency consolidation and real-time roll-up across accounts receivable, accounts payable, payroll, inventory, billing, invoicing and order fulfillment, from local in-country operations to the regional offices to global headquarters.

Run your Business from Anywhere

NetSuite OneWorld's web-based access enables your employees to access NetSuite from anywhere on the globe. With support for popular mobile devices, NetSuite

OneWorld customers get access to the data and functionality they need from the palm of their hand.

NetSuite OneWorld Features

The backbone of NetSuite OneWorld is the Financials.

NetSuite OneWorld Financials provides a complete cloud financial management application for global businesses. With NetSuite OneWorld Financials, businesses can adjust for currency, language, taxation and legal compliance differences at the local level, alongside regional and global business consolidation and roll-up. NetSuite OneWorld provides real-time visibility into all aspects of your business worldwide, ensuring consistent and compliant management both locally and globally.

With support for over 190 currencies, 19 languages and customer deployments in over 160 countries, country-specific accounting standards across North America,

Europe and Asia, NetSuite OneWorld enables organizations to seamlessly meet the individual needs of local operations and easily adapt to the latest accounting standards and regulations.

NetSuite OneWorld features for global businesses:

Global Accounting and Consolidation

NetSuite OneWorld is built around robust financial reporting capabilities that enable an organization to understand what is happening across the global business in real-time. In addition, NetSuite OneWorld provides a multi-language user-interface that helps bridge communication barriers and provides a flexible hierarchy that allows businesses to run their entire entity structure with ease. OneWorld is designed to provide an instant global view of the business with subsidiary specific drill-down allowing you to quickly understand what is going on anywhere in the world.

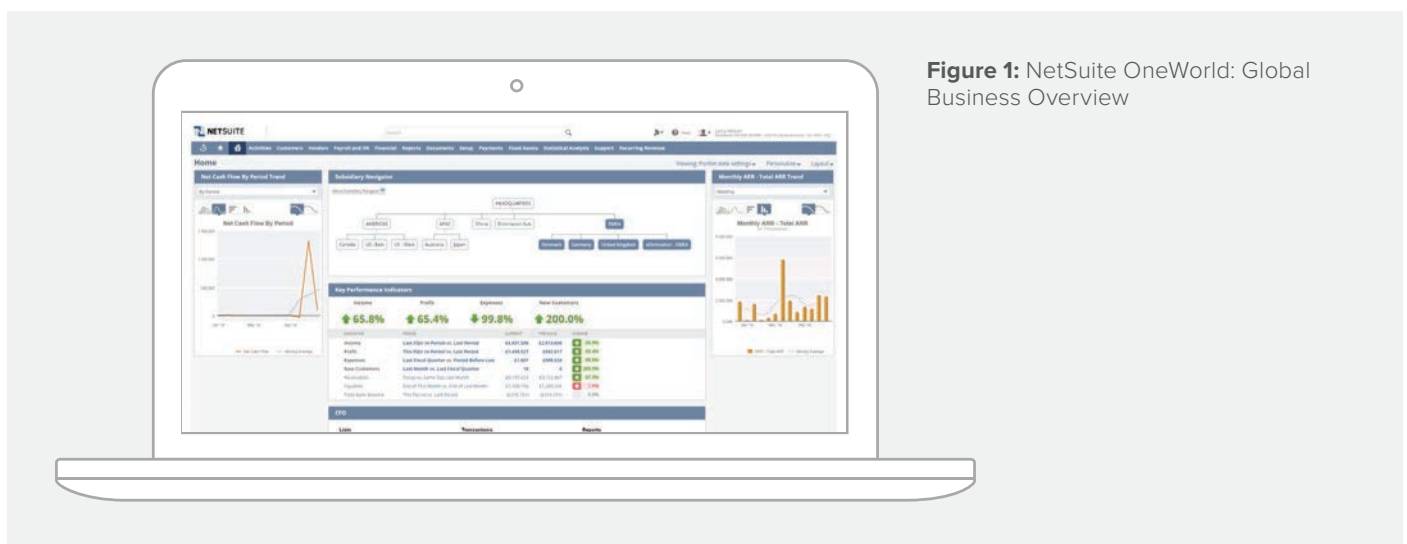

Figure 1: NetSuite OneWorld: Global Business Overview

Comprehensive Multi-currency Management

NetSuite multi-currency management supports 190+ currencies and exchange rates (enabling you to do business with both customers and vendors globally) as well as a wide variety of payment options. It provides real-time currency conversion and financial consolidation for all your global operations. With NetSuite OneWorld, you are able to manage a complete range of international tax structures and restate currencies and consolidate financial reporting across business units.

Audit and Compliance Reporting

NetSuite OneWorld has been built to support both global standard and country-specific requirements. The always-on audit trail, built-in analytics, access logs and workflow, and the ability to drill down to the underlying transaction detail ensured that you'll always get supporting documentation. Further, roles in user permissions management in business workflow capabilities allow you to configure the system behaviors to support your own process requirements to help you meet the needs of local compliance obligations.

Configurable Tax Engine

Recognizing the critical need for businesses to meet local indirect tax obligations wherever they do business, NetSuite OneWorld provides out-of-the-cloud pre-configuration to more than 50 countries. NetSuite also provides a built-in tax engine that is configurable to your specific business needs.

NetSuite OneWorld natively enables you to calculate taxes in real-time on sales and purchase transactions and cross border sales and Intrastat reporting obligations between EU countries and file reports electronically, making the installation of stand-alone tax engine unnecessary for many businesses.

Summary

NetSuite OneWorld addresses the complex multinational and multi-company needs of organizations. It enables businesses to adjust for currency, taxation and legal compliance differences at the local level, with regional and global business consolidation and roll-up. Business leaders get unprecedented visibility of their business worldwide in real-time, ensuring consistent, compliant management across the organization, locally and globally. In addition to providing global accounting/ERP solution, NetSuite OneWorld offers global Customer Relationship Management (CRM), ecommerce and Professional Services Automation (PSA) solutions, enabling multinational businesses to align operations across finance, marketing, commerce, sales and service.

Why NetSuite

In 1998, NetSuite pioneered the Cloud Computing revolution, establishing the world's first company dedicated to delivering business applications over the Internet. Today, NetSuite provides a suite of cloud-based financials/Enterprise Resource Planning (ERP) and omnichannel commerce software that runs the business of more than 30,000 companies, organizations, and subsidiaries in more than 100 countries.

NetSuite is the #1 cloud ERP globally, in Singapore and in Hong Kong. Many FORTUNE 100 companies rely on NetSuite to accelerate innovation and business transformation.
